Our Approach

INTENT

We don't like boring! It is our intention to ensure that our clients are engaged in activities through all our services. We've all sat through monotonous "training" involving hours upon hours of sitting & listening. We don't believe in that approach and believe we'll get the best out of our clients if we get them 'doing' instead.

IMPLEMENTATION

We deliver our sessions using structured frameworks tried and testing in professional teaching & coaching practice. This ensures that our clients receive a sequential session or programme ensuring that they are able to clearly track, monitor and review progress.

Within our Continuous Professional Development (CPD) delivery, we use our bespoke 5 C's learning framework to maximise engagement and learning opportunities.

IMPACT

We want our clients to leave with our sessions feeling empowered through a memorable, enjoyable learning experience and developing a love for learning. We aim to ensure our clients are able to take new information away to practice and apply to their environments, feel supported outside of National Governing Body organisations, and leave a legacy of positive improvement amongst groups. Ultimately, we want better support to create better coaches.
